

A broad spectrum of colors are available for all-through coloring of rotomolded polyethylene products. Colors are either pigments that can be dry blended with natural white resin here at Dura-Cast or colors that are chemically bonded into the resin by specialty resin suppliers.

Standard Available Colors

Dura-Cast stocks the following colors:

Blue – Navy 103	Green – Jade 128
Brown – Chocolate 113	Tan 126
Brown – Chocolate 113	Terra Cotta 109
Gray - Dark 104	White – Natural 100
Gray – Dark 104	Yellow – Mustard 125
Green – Aquamarine 118	

NSF Pigment

The following pigments are NSF Certified and can safely be used to store potable water and food products:

Black – KO	Gray – Cool A1
Blue – Marine 14	Gray – Light K3
Green – Hunter J4	

Optional Colors

Optional colors may be in stock, have increased special formulation costs, can have unique process requirements, and/or may require additional post mold cleaning. Please contact Dura-Cast for a price quote.
